

MALE COAXIAL PLUG

Male PlugB160

Standard 75Ω Coaxial Male Plug.

FEMALE COAXIAL PLUG

Female PlugB170

Standard 75Ω Coaxial Female Plug.

COAXIAL INLINE COUPLER

Inline CouplerB155

75Ω Coaxial Coupler to join Coaxial leads.

COAXIAL "Y" SPLITTER

"Y" SplitterB175

This splitter is used to separate one coaxial feed into two matched feeds.

COAXIAL SURFACE SOCKET

Surface Socket.....B140

Surface mounting 75Ω Coaxial Socket.

SOCKET with PREWIRED LEAD

Prewired Socket.....B150

Waterproof, pre-wired coaxial socket for exterior fitting to vehicles. Supplied with 5 metres of cable.

COAXIAL FLYLEAD

Flylead.....B180

2 metre 75Ω Coaxial Fly-lead.

COAXIAL CABLE LEADS

4 Metre Coaxial Lead.....B307
10 Metre Coaxial Lead.....B308

Longer coaxial fly-leads, complete with back-to-back coaxial connectors.

COAXIAL CABLE

100m of Coaxial Cable.....B185
25m of Coaxial Cable.....B186

Convenient reels of White 75Ω Coaxial Cable, for selling by the metre. Ideal for both Retail and Workshop.

COAXIAL RADIO PLUG

Radio PlugB165

Metal 75Ω Coaxial Long Pin Radio Plug.

SATELLITE LEAD (2 METRES)

Satellite Lead (2m)N259

A 2 metre long, F plug to F plug, white satellite lead.

PAIR OF SATELLITE F CONNECTORS

Satellite F Connectors (2).....A106

A pair of Maxview satellite F type connectors, complete with O rings, suitable for all types of 5-6mm satellite cable.

SURFACE MOUNTING SATELLITE POINT

Surface Satellite Point.....N258

A surface mounting satellite point for F Type Connectors and satellite cable.

WEATHERPROOF COAXIAL SOCKET

Weatherproof Socket.....B309

Provides a neat external weatherproof cable entry point for an aerial signal into a caravan. Includes 3 metres of cable and suitable connectors.

WEATHERPROOF SATELLITE SOCKETS

Single Satellite F SocketB329
Twin Sat F & Coax Socket ..B327

These weatherproof sockets provide an ideal external cable entry into the caravan or mobile home. Includes 3 metres of cable and suitable connectors

UNIVERSAL TV POWER LEAD

Power Lead.....B250

D.C. Power Lead with reversible socket and 4 interchangeable plugs – 1.3mm, 2.1mm, 2.5mm, and 3.5mm mono jack plug.

MASTED TV AERIAL and ACCESSORIES

- Masted TV Aerial (Complete with Mast and Clamps)A110
- TV Aerial with Fixing Clamp onlyA111
- Aerial Mast Pole Set with Jockey Wheel Clamp onlyA120
- Jockey Wheel Clamp onlyA130
- Fixing Clamp onlyA140

Complete Set or Individual Components

RADIO AERIAL

Radio AerialA150

Compact Leisure Radio Aerial with built in Amplifier.

TRUVISION AERIAL

Truvision Set Top AerialB303

The Maxview Truvision Aerial is designed to receive all available analogue and strong digital terrestrial UHF TV signals, and comes complete with 2 metres of cable.

MOBILE GOLD AERIAL

Mobile Gold Aerial.....B300

The Maxview Mobile Gold Touring Aerial is a wideband UHF external directional aerial, for use in strong signal areas. It comes complete with 5 metres of coaxial cable, universal fixing mast, and accessories.

COMPACT HIGH GAIN AERIAL

Compact High Gain Aerial..B301

The Maxview Compact High Gain UHF Aerial is designed for optimum reception in weaker signal areas, and features a multi-element, anti ghost reflector for rejecting unwanted signals whilst enhancing forward directivity and gain.

COMPACT LOG AERIAL KIT

Compact Log Aerial KitB320

This Compact Log Periodic UHF TV Aerial comes complete with a lightweight aluminium Jockey Wheel Mast (B323) and a hard-wearing terrestrial aerial kit holdall (B321).

DIGIMASTER DIGITAL AERIAL

Digimaster Digital AerialA109

A superb quality digital high gain TV aerial, working even in poor to moderate signal areas. CAI 2 and digital tick approved, the aerial has a tilt and slide clamp, PCB Balun intensifier, large rear reflectors, and comes pre-wired with 10m of CAI benchmark approved cable.

OMNIMAX AERIAL

Omnimax Aerial.....B302

The Maxview Omnimax Aerial is designed to receive all available UHF TV and VHF/VHF/FM signals through 360°. The Aerial features a 12 volt variable signal booster and includes 5 metres of coaxial cable and accessories.

GAZELLE AERIAL

Gazelle Aerial.....B328

A streamlined omnidirectional 12v/24v aerial, ideal for all UHF/VHF/FM signals. It comes complete with low noise integral head amplifier and variable gain booster.

TELECO WING AERIAL

Teleco Wing AerialB350

The Teleco Wing is a superbly aerodynamic, roof-mounted, omnidirectional aerial, ideal for UHF and VHF B3 channel reception. Complete with high-gain amplifier.

UNIVERSAL AERIAL CLAMPS

Pair of Universal Clamps.....B305

Pair of strong adjustable clamps with self adhesive/screw-in mounting brackets.

JOCKEY WHEEL MAST

Jockey Wheel Mast.....B323

This lightweight aluminium aerial mast comes complete with two universal jockey wheel clamp brackets, giving optimum stability, and extends to a height of 3.6m.

VARIABLE SIGNAL BOOSTER

Variable Signal BoosterB306

The Maxview 12/24v Variable Gain Signal Booster amplifies and improves picture quality in weak reception areas.

TV TURNTABLE

TV TurntableB304

This 320mm diameter Turntable, with non-slip rubber feet will support a TV weighing up to 160kg, and rotates fully through 360°.

PADDED TV/COMBI BAG

Padded TV/Combi Bag (Navy)L513

A quality Blue Diamond padded bag to carry and protect standard portable TVs or TV/Video Combination sets. Available in navy colourway.

FLAT SCREEN TV with DVD and DVB-T FREEVIEW

LCD TV/DVD/DVB-TT150

This top quality 15" LCD TV has it all - superb picture quality, a built in DVD/CD player, and an integrated DVB-T Freeview TV receiver for satellite reception. Running on both 240v AC and 12v DC, this is the ideal portable entertainment system.

FLAT SCREEN TV PADDED BAG

Flat Screen TV Bag.....L517

The ideal protection for your portable entertainment system, this strong, thick padded, 600D polyester carry case is both stylish and practical, and is designed to accept a 15" LCD television.

DIGITAL 'FREE TO AIR' SATELLITE RECEIVER

Digital Satellite ReceiverB314

This 240v/12v 'Free to Air' digital satellite receiver receives over 200 free TV & radio channels, including BBC and ITV, and comes complete with remote control, power supply and cigar plug adaptor.

OMNISAT CAMPING KIT SATELLITE SYSTEM

Omnisat Camping KitB315

The Omnisat Camping Satellite Kit is easy to use with a Satellite Receiver in both the UK and Central Europe. It contains a 40cm dish, universal LNB, a range of mounts (or just use in the carry case), coaxial cable and a compass.

SATELLITE FINDERS

**Maxview Satellite FinderB312
Satellite FinderA108**

These ingenious Satellite Finders are an essential tool for locating a strong digital satellite signal with all satellite systems, combining variable audible tone and ascending visual LED display for ease of adjustment.

SATELLITE COMPASSES

**Std Satellite CompassB313
Digital Satellite Compass...B322**

Both of these navigational compasses have an alignment window to help locate satellite signal zones quickly and easily, whilst the back lit LCD digital compass also comes complete with suction pads for window mounting.

SATELLITE TRIPODS

**Std Satellite Tripod.....B311
Deluxe Satellite Tripod.....B324**

These Satellite Dish Tripod Stands ensure optimum positioning of satellite systems away from the leisure vehicle, with rotating sections for ease of alignment, and secure location ground pegs. The deluxe stand has an extra 500mm height adjustment.

SPARE CARRY BAGS

**Terrestrial Aerial Kit Holdall.B321
Satellite Kit HoldallB322**

These robust carry holdalls are ideal for storage or travel. Specifically designed to hold complete satellite or terrestrial aerial kits, they avoid damage to both the aerial and the leisure vehicle during transportation.

MAXVIEW OMNISAT SATELLITE SYSTEMS

OMNISAT PORTABLE SATELLITE SYSTEMS

**54cm Satellite Kit with Holdall.....B330
54cm Satellite Dish OnlyB325
66cm Satellite Kit with Holdall.....B331
66cm Satellite Dish OnlyB326**

These Portable Satellite Kits come complete with Tripod Stand, Satellite Finder, Omnisat Compass, strong Carry Holdall and a choice of either an offset 54cm dish or elliptical 80cm x 66cm satellite dish, for improved digital satellite reception throughout Europe. Both dishes have a folding universal LNB reception arm, and easy to use satellite map for dish alignment.

OMNISAT THROUGH THE ROOF SATELLITE SYSTEMS

**Complete Semitronic 66cm Satellite Kit ...B318
Semitronic 66cm Elliptical Dish Pack.....B316
Spare Through the Roof Aerial Mast.....B317**

The Omnisat Semitronic 66cm Elliptical Dish Pack is a digital semi-automatic satellite system, designed for mounting on a Through the Roof Omnimast, and comes complete with a 80cm x 66cm elliptical dish, Universal LNB and a 12/24v Control box, to automatically raise the dish to the required elevation. Azimuth adjustment is achieved by rotating the mast. The dish locks down at a 21cm height during travel.

OMNISAT ROOF MOUNTED SATELLITE SYSTEMS

Omnisat 66cm Crank Up Satellite SystemB319

The Omnisat Manual Crank Up Satellite System is permanently roof mounted in any convenient position, and is easy to align from inside the leisure vehicle using the ceiling mounted crank-up handle and an elevation zone map. The elliptical 80cm x 66cm dish and universal LNB make this system ideal for digital satellite reception throughout Europe. The fold down height during travel is 26cm.
